## Democratic Ticket.

FOR PRESIDENT:  
GROVER CLEVELAND,  
Of New York.FOR VICE PRESIDENT:  
ALLEN G. THURMAN,  
Of Ohio.

## Nominated.

On Monday last, being the seventh day of the Convention and the 5th ballot, ex-Senator Benjamin Harrison was nominated as the Republican standard-bearer for the year of grace, 1888. This action of the Convention seems to have been more the result of spitework than because of any inherent qualities of personal magnetism or availability possessed by the nominee. The fact is, the friends of the other candidates had become heartily tired of the dictatorial tone assumed by the Blaine managers, and it was simply a combination of "the field against the favorite," which finally resulted in Harrison's nomination.

If the nominee suits Republicans he certainly ought to please Democrats. As far as the public knows, the private character of Mr. Harrison is above reproach. But he is not a man of the people. In temperament he is as cold and forbidding as John Sherman, and as haughty and aristocratic as was ever Charles Sumner. His public career has not been such as to mark him as "a man of victory." Some years ago he ran for Governor of Indiana and was badly beaten by "Blue Jeans" Williams, a plain old farmer, and later on Judge Turpie defeated him for re-election to the Senate of the United States. Outside of Indiana, he is unknown to the masses, and even within the limits of that State it has been practically demonstrated that he is far from being universally popular, and he cannot carry that State in November.

Blaine would have aroused "the boys" and created a wild enthusiasm which will now be silent; Alger or Gresham would have stirred up the old soldiers and started the banners to waving on every Grand Army Post throughout the country; Allison would have started into a blaze the vast prairies of the West, while the grangers would have docked to his standard by the thousands; Sherman would have consolidated all the discordant elements of his party, and, backed by the powerful influence of Wall street, could have hurled a mighty engine of destruction into the opposing ranks of Democracy. But Mr. Harrison can do none of these things—neither create enthusiasm, secure the soldier vote, capture the grangers, carry the Pacific Slope or unify the disaffected and jealous heartburnings now threatening the life of his party.

For Vice President, Levi P. Morton, of New York, received the nomination. Mr. Morton is noted principally as one of the wealthiest bankers and railroad magnates in the country, and perhaps has a larger influence over the railroad mileage of this country than any man in the United States. Presumably, he was either placed on the ticket with the faint hope of carrying New York, or because of the powerful moneyed and corporation influence which he wields. The ticket is well conceived—aristocracy at one end, money at the other, and defeat in the perspective.

The vote on the final ballots was as follows:

President—Harrison 504; Sherman, 118; Alger, 102; Gresham, 63; Blaine, 52; McKinley, 4.

Vice President—Morton, 591; Phelps, 119; Bradley, 103; Bruce 11; W. F. Thomas 1.

If the nomination of Ben Harrison in particular, in which state it must be, is to be overboard, it is best in order to secure the nomination of Indians, while Ohio, Illinois, and Nevada can be referred to the Democratic slate.

Our own and only Billy O'Bradley was given the much sought for opportunity to make a spectacle of himself in the Chicago Convention, and according to the newspapers of that city he made it. The trouble with William O. is, that he is rather too large for the State of Kentucky, but infinitely too small to spread all over the United States.

William Patterson, for the murder of Jennie Bowman, was hanged in the Louisville jail at sunrise on Friday morning last. His cause at one time created a great deal of excitement in that city, as there were those who believed him innocent of the crime for which he was hung.

The National platform of the Republican party, adopted last week at Chicago, is a real work or art—in fact the most artful piece of current literature we have read for some four years—and its beautiful "in-sight" stands out as bold and transparent as its true meaning is opaque and intangible. For instance, in one plank we have the following:

"We denounce the Mills bill as destructive to the general business, the labor and the farming interests of the country, and we heartily endorse the consistent and patriotic action of the Republican Representatives in Congress in opposing its passage."

Now, the real effect of the passage of the Mills bill would be, not "destructive to the general business" of the farmer and laboring man, but would, by throwing open the market to fair competition, cheapen every article of prime necessity and thus lighten the burden of taxation now pressing so heavily upon the farmer and the common laborer. It is true, the passage of this bill might somewhat curtail the enormous profits of those Eastern manufacturers who now make "large fortunes every year," according to high Republican authority, but the farmer and the laboring man would be the gainers thereby.

In another plank of the platform we read as follows:

"We declare our opposition to all combinations of capital, organized in trusts or otherwise, to control, arbitrarily, the condition of trade among the citizens."

The insincerity and inconsistency of the above is too transparent to deceive any one who takes the trouble to read carefully between the lines. In one sentence the platform deprecates and denounces monopolies and combinations of capital to control the markets, and in another sentence advocates a high protective or prohibitory system of customs duties without which such trusts and combinations would be impossible. In other words, our Republican platform-makers say to these wealthy monopolists, We are opposed to you fleecing the people, but at the same time we shall do all in our power to enable you to do it. Such hypocrisy is an insult to the poorest intelligence. The only practicable manner in which these moneyed syndicates now cursing the country can be broken up is by placing on the free list all articles now controlled by them, and to this the Republican party refuses to consent. Previous to our present prohibitory system going into effect, there was no such thing known in this country as a commercial syndicate or trust. They are the offspring and immediate result of that narrow policy of protection which fosters one industry at the expense of all others, and which virtually says to the farmer and the laboring man, You shall submit to the extortionate prices created by these syndicates, in order that a few ironmasters and cotton and woolen spinners in the East may be enabled to "make large fortunes every year." Such is the true meaning of "protection" and such its legitimate results.

The Murray, Ky., News says: On Monday afternoon a sad accident took place south of town. A son of Fayette Wilson, aged ten years, was in the field at work, and when quitting time arrived the little fellow unlatched the animal from the plow, jumped on its back and started for home. When only a short distance the mule took fright at some object and threw the little fellow, his feet becoming entangled in the gear and in this way the animal ran with him for about two hundred yards, when some parties near by went to his assistance, but too late, as his body had been terribly mangled and he was breathing his last when they reached him.

The Republican platform means nothing, it means that the g. o. p. is in favor of free whisky and a yet higher tariff on some of the prime necessities of life, so as to virtually prohibit foreign importations and leave the people of this country entirely at the mercy of syndicates and trusts. It is a platform made to favor the rich manufacturing interests at the expense of the agricultural and the common laborer. The issue is now fairly joined. It is that of capital against labor, the rich against the poor. Can the contest be a doubtful one?

If the Republican party had intended fighting the approaching battle on a platform of principles, the Chicago Convention would have nominated John Sherman for the Presidency. Sherman is the very quintessence and embodiment of Republicanism, as formerly expounded. But this fight is to be made on the lines of expediency and claptrap. Hence such old time leaders as John Sherman are slaughtered without mercy.

Judging from their platform, this campaign is to be made by the Republican party on a strictly cash basis, with dollars and cents as the leading issues. In other words, they will endeavor to fit the Presidency to the people of this country rather than the people of this country fit to the Presidency. It is a frail thread on which to hang their hopes, and yet money is a powerful factor in modern politics.

The action of the Chicago Convention in throwing Mahone overboard and admitting the Wise delegates is an indication that the Republican party proposes to cut loose from the South in this Presidential contest and look exclusively to the Northern States for its electoral votes. Having no further use for Mahone, therefore, he is tossed aside as any other piece of worthless rubbish would be. This may be a wise policy on the part of the Republican leaders, however rough it may be on Mahone. But had he any just cause to expect better treatment? He betrayed his section and his party at a time when grave issues hung trembling in the balance, and he has only received the usual reward of traitors.

# WALTER CLEMENT IN THE LEAD?

LOW PRICES ARE BOUND TO WIN.

I don't handle Cheap John hardware nor furniture, but do handle First Class Groceries at prices to suit the people and very earnestly solicit the patronage of those that buy this class of goods. I propose to give you more good of this class for \$1.00 than you can buy elsewhere. Give me a trial and I will convince you of this fact.

Very truly,

Walter Clement.

Ah, There!

The largest radish we have seen this season was brought to this office Saturday last by Mr. J. E. Nall. It measured 16½ inches in length and 6 inches in circumference. Mr. Nall certainly understands the art of growing radishes.—Caldwell Courier.

Reuben Wheeler, a ten year-old boy living near Union church, was bitten on the hand by a copperhead snake last week. His hand and arm began to swell rapidly, a chicken was killed, its body split open and tightly bound around the hand. This gave him instant immediate relief; three chickens were used, one after another, and the young man was almost entirely relieved.

Death.

Mr. Frank Crow, a well known citizen, died at his home in Marion Monday afternoon, June 25, 1888, after an illness of several weeks. ## Solid Marion.

The rapid and permanent improvements that has been and is now going on in and around Marion since the completion of the Ohio Valley Railroad, shows to any observing mind that the location and advantages surrounding this place, together with the healthy locality, makes this one of the most desirable points in this portion of the State for a permanent home. The fact that all these improvements has been quietly done without any boom of any kind is the strongest and best evidence that this growth is solid and of no mushroom character. At this time preparations are far advanced for the erection of another large block of brick business houses with a commodious Opera House over them to be completed this year. This with the certain prospects of the building of the Princeton, Marion and Ohio River Railroad from Marion to the Ohio River at an early day, placing Marion on the shortest line between St. Louis and Nashville adds at least 50 per cent to the values of Marion property, making it the central point and most desirable location for manufacturers and machine shops in western Ky., all of which will add largely to the present, permanent and solid improvements of Marion and Crittenden county.

The PRESS was much happy by receiving the following:

"We take pleasure in inviting you to attend the Opening Ball, in our new hotel at Crittenden Springs, Ky., on the eve of Tuesday, July 3d, 1888.

## In Memory of Mrs. Susan C. Green.

Death, the dark winged angel, has invaded our community and for his victim chose one whom we least expected and it seems could least spare—one among the most loving and dearest of wives, and kind an affectionate of mothers. But alas! death selects a shining mark.

Mrs. Green was the wife of Hon. Wm. H. Green, of Livingston county, Ky., and daughter of the late Col. Richard and Kittie Miles, and was born at the Miles homestead, same county and State, 3½ miles south of Salem, on the 27th of May, 1838, was married to Wm. H. Green Dec. 14, 1855; made a public profession of religion and was baptised into the fellowship of Pinkneyville Baptist church in November 1871, and departed this life, after a painful and protracted illness, June 17, 1888.

The writer will not extol, above measure, the shining character and rare virtues of this now sainted and once noble Christian woman. He is not warranted in claiming perfection for any of this world of sin, pain and sorrow, but after an intimate acquaintance and pastoral relationship of ten years, he has failed to discover in her words or acts anything in derogation of an exalted Christian life.

The writer repeatedly visited sister Green during her painful and protracted sickness of five weeks, and always found her bearing her sufferings with as much patience and resignation as is possible under circumstances so trying. But oh, the fatal hour came. The struggling victim yielded to the all conquering arm; God claimed His own and made her redeemed one come up higher.

Sister G. died as she had lived, the same humble, trusting child of God, without an enemy on earth, for the reason that she was the friend of all.

When the solemn hour of her departure came, "she was tranquil amid alarms," her strong Christian faith, served as a bright halo around her dying couch. She called to her beside her husband, crushed with grief her weeping children and friends present, and bade them an affectionate farewell; then entered the dark doorway and passed over the river to forever rest in the shade of the beautiful trees beyond.

Farewell dear wife, mother, sister for awhile. We mourn your absence but not as those who have no hopes; we cherish the happy assurance that you, in your glorified form, are forever freed from the pains, cares and sorrows of this life, and are in the enjoyment of the rest which remains for the people of God.

The writer preached the funeral of sister Green at her home in the presence of a large audience of weeping hearers, from the words, "Blessed are the dead that die in the Lord from henceforth; ye saith the spirit they rest from their labors and their works do follow them."

After which the remains were taken to the Miles graveyard, at the home of her birth, and childhood, interred by her father and mother, and interred by her friends, who will cherish her a fond remembrance until we all meet again.
